

# Innovation and Implementation accelerator for Complex Rehabilitation Technology

**i2-CoRT** brings together state-of-the-art knowledge & experience of rehabilitation centres, knowledge centres, (SME) businesses, healthcare sector organizations and patients (organizations) in order to promote and accelerate rehabilitation technology innovation and implementation.

AGENTSCHAP  
INNOVEREN &  
ONDERNEMEN

Vlaanderen  
is ondernemen

Provincie Noord-Brabant

Ministerium für Wirtschaft, Energie,  
Industrie, Mittelstand und Handwerk  
des Landes Nordrhein-Westfalen

Wallonie

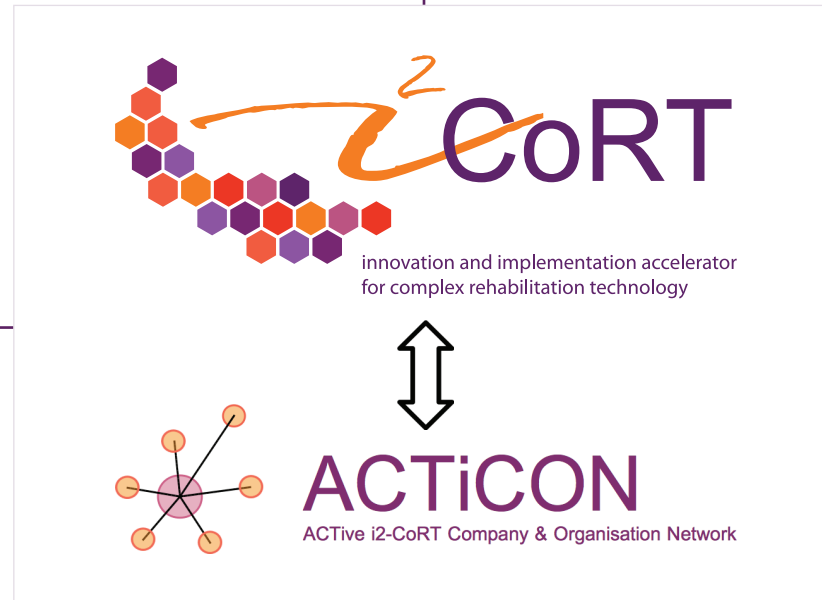

provincie limburg

### 3 clinical test centres for complex rehabilitation technology (RT)

**Goals:**

- a. innovation-friendly infrastructure;
- b. protocols and standard operation procedures;
- c. trans-disciplinary knowledge sharing;
- d. innovation acceleration;
- e. co-creation.

### Euregional comparison

**Goals:**

- a. RT quality assurance;
- b. rehabilitation indication;
- c. transnational certification.

### Cross-border activity

**Goals:**

- a. creation of jobs;
- b. market launch of new RT products;
- c. market widening.

### New rehabilitation technological products

**Goals:**

- a. development of new RT products through intensive co-creation;
- b. evaluation of new RT products;
- c. cross-border rehabilitation implementation and care innovation.

### Development of knowledge network on rehabilitation technology

**Goals:**

- a. attraction of RT innovations;
- b. attracting of business activity and initiatives;
- c. broadening of market supply and demand beyond national markets;
- d. facilitating cooperation between Euregional partners;
- e. trans-disciplinary improvement of knowledge;
- f. knowledge assurance.
